Experiment -1

AIM: To create an AWS free tier account to provision the resources.

Description:

Amazon Web Services (AWS) is a cloud computing platform provided by Amazon. It offers various cloud services, such as computing, storage, databases, networking, and security.

The purpose of this experiment is to create an AWS Free Tier account, complete the email and mobile verification processes, provide the required registration details, and access the AWS Management Console. The AWS Management Console is a web-based interface used to access and manage different AWS cloud services.

Steps:

Open a web browser such as Google Chrome or Microsoft Edge.

- Visit the official AWS website: https://aws.amazon.com/free.
- Click on Sign in to console.
- Select Create a new AWS account.
- Enter your email address, password, and AWS account name.
- Verify your email address by entering the OTP received in your registered email.
- Select the available Free plan and continue with registration.
- Enter your personal information, including your full name, mobile number, and address.
- Accept the AWS terms and conditions.
- Provide the required payment details for account verification, if requested.
- Complete identity verification by submitting the requested details or documents, if required.
- Verify your mobile number by entering the OTP received through SMS.
- Wait until AWS completes the account creation and verification process.
- Open https://console.aws.amazon.com.
- Sign in using your registered email address and password.

- After successful login, the AWS Management Console dashboard will appear.
- Check the account name and explore the available AWS services.

Output:
